

Jakarta Street Kids GC
Annual Report 2007 - 2008
United World College of South East Asia

PROJECT DESCRIPTION	
Project Name:	Jakarta Street Kids GC
Project Location (state, country):	Jakarta, Indonesia
Mission & Objectives:	The organization's main aim is to shelter and aid the large number of children that are currently homeless and hopeless on the streets of Jakarta. JSK is not only committed towards providing manageable living conditions for these street kids, we are also acutely aware of the need to educate them sufficiently for them to escape the cycle of poverty.
Project Services:	We have managed to help an orphanage in Jakarta known as Al-Quraniah to fund several sustainable projects. The projects comprised of setting up a telephone center and a grocery store. Both projects have proven to be exceedingly successful as both have started to turn profits, thus enabling Al-Quraniah to provide a better standard of living for the orphans. The success of both projects can be attributed to the detailed planning and close supervision of the building process. Also, members of our GC contribute actively to brainstorm ideas and implement them. Thus, providing a venerable base from which the projects excel.
Project Activities:	JSK has succeeded in creating sustainable forms of incomes for AQ, and the GC is committed towards funding more organizations and helping them become self-sustainable.
